EXPERIENCE

DevEx Engineer — Sept 2023 - Present
SAS - Scandinavian Airlines — *Stockholm, Sweden*

- Organization Admin for the full Dev-Tool stack (GitHub, Backstage, Jira, Miro)—scaled and supported 800+ employees; shipped a Backstage-based Internal Developer Portal used daily by 350+ engineers, whose custom cloud-security & observability plugins lifted deployment throughput 30% and cut self-service lead-time 25
- Governed a 362-developer GitHub Enterprise org with 1,000+ repos—standardized CI/CD via GitHub Actions (build success 99%), automated branch-protection % compliance policies, and rolled out GitHub Copilot Enterprise, trimming PR cycle time 15% and reducing code-quality issues 18%.
- Managed Jira (550 users) and Miro (400 users) accounts with secure, "one-click" onboarding/offboarding. Simplified reporting to reclaim licenses and save hundreds of support hours quarterly.

React Native Developer — February 2022–Jan 2023
DotCom Studio *Remote*

- Built cross-platform apps with **React Native**, **TypeScript**, and **Expo**; optimized for performance on mobile and low-powered devices.
- Worked with clients in **agile teams**, contributing to front-end development across multiple projects end-to-end.

Web App Developer — February 2021–April 2022
ContentDrips — *Hybrid/Remote*

- Developed core front-end features for the ContentDrips creator platform (React + Node).
- Added AI content/image generators and improved site performance to boost engagement.
